Split off and transfer of Generic Drugs and Part of Long-Listed Products Business and Change of Subsidiary

Mitsubishi Tanabe Pharma Corporation (hereinafter "MTPC") resolved at its Board of Directors meeting held today that it will have Tanabe Seiyaku Hanbai Co., Ltd. (hereinafter "TSH") succeed MTPC's business of generic drugs and part of long-listed products (hereinafter collectively "the Business") by way of a an absorption-type of company split (hereinafter "the Transaction") and subsequently transfer all of the TSH shares (hereinafter "the transfer of shares") to Nipro Corporation (Head office: 3-9-3 Honjo-nishi, Kita-ku, Osaka city; President & Representative Director: Yoshihiko Sano; hereinafter "Nipro"). The outline of the Transaction is as follows.

Since the company split will be carried out between MTPC and its wholly-owned subsidiary, part of the disclosure items and contents are omitted in the statement below.

1. Objective of the Transaction

Since establishing TSH as a distribution company of the Business in 2008, MTPC has been engaged in sales and promotion of "reliable generic drugs" with "high quality," "stable supply" and "information provision." The target rate of the substitution of generic drugs in place of long-listed drugs in Japan is expected to grow to 80% in volume by 2020 with the active measures implemented by the government to promote more use of generic drugs. On the other hand, some dozen of companies attempt to sell the same product and the competition becomes even fiercer, that the future environment will be changeable. Given that market environment, MTPC considered the optimizing of its generic drugs business and reached a conclusion that further market share expansion and business efficiency are extremely important. In this regard, MTPC decided that, rather than continuing this business, stable supply will be effectively secured by transfer the business of generic drugs and part of the long-listed products to Nipro, which has rich development experience and

diverse production platforms.

Nipro is a pharmaceutical company that provides pharmaceutical products, medical devices, and pharma packaging (packaging materials for medical use). In the area of pharmaceutical business, the company has advantage of supply chain from manufacturing to sales, and provides various products of injections, oral and external use drugs, and has excellent business relations with MTPC especially in the contract manufacturing of generic drugs and long-listed products.

After the Transaction, MTPC will further strengthen its efforts to open up the future of medicine through providing innovative new drugs and has been contributing to the healthier lives of people around the world.

2. Details of the Company Split and the Transfer of Shares

(1) Schedule of the company split and the transfer of shares

Decision by the Board of Directors of the Transaction	March 28, 2017	
Date of conclusion of the agreement of transfer of shares		
Date of conclusion of the agreement of company split	July 1, 2017 (planned)	
Effective date of the company split	O-t-b 4 0047 (-l	
Closing date of the transfer of shares	October 1, 2017 (planned)	

(Note) The company split will be conducted without obtaining approval of the general meetings of shareholders at each company because it will be executed through a simplified company split for MTPC and through a short-form company split for TSH as defined in Paragraph 2, Article 784 and Paragraph 1, Article 796, of the Companies Act respectively.

The resolution of the company split agreement will be authorized on late June 2017.

(2) Method of company split

It is an absorption-type split in which MTPC is a splitting company and TSH is the succeeding company.

- (3) Details of stock allocationAs the succeeding company is a wholly-owned subsidiary of the splitting company, no allocation of shares or delivery of other consideration will take place.
- (4) Treatment of stock options and corporate bonds with stock options for the splitting company MTPC issues neither stock options nor corporate bonds with stock options.
- (5) Increase or decrease of capital stock due to the company splitThere will be no change in MTPC's capital stock due to the company split.
- (6) Rights and obligations to be succeeded by the succeeding companyIn principle, TSH will succeed the assets relating to the Business, as well as liabilities, manufacturing and marketing approvals, status of the related contracts and the rights and obligations incidental thereto on the effective date of the company split, which is defined in the company split agreement.
- (7) Capability of satisfying liabilities

It has been judged that TSH will not have any problem in performing its obligations relating to the liabilities it will bear following the effective date of the company split.
